It's horrible knowing you won't be able to continue doing the thing you loved the most, art. It's unfortunate that you were taken from us just moments from realizing your dream, and I promise we're doing everything we can to avenge your death. Rest in peace.

LIFE

Alex Schachter had a promising life in the arts before his hopes were viciously stolen from him. His father is now left without his son, and his siblings will never be able to see his smile again. He is now embracing his mother in heaven, and he will be very missed.

AMENDMENT

The second amendment is an important part of our culture and history. This does not, however, serve as an excuse for all the murders that keep happening. This amendment deserves to be amended, but not for anything other than repaying our fallen Americans who have lost their life to gun violence.

STATISTIC

Another senseless death.
