Cynthia, you will be missed and remembered for loving your family and being a woman of God. You will be remembered by the people from the library. I was so sad when I heard the news.

## LIFE

Cynthia was the head of the family; she was like the glue that put the family together. Cynthia was born in Charleston and never left from there. She was a proud librarian. She loved the church and loved God.

## AMENDMENT

I think that the second amendment (right to bear arms) needs to be stronger in the way that they need to do background checks before you sell any weapons to anybody. They need to make it stronger by asking for their medical record or something similar.

## STATISTIC

Another senseless death.
