## LIFE

Sharonda Singleton was 45 years old. She was born on September 24, 1969 in New Jersey and she died on June 17, 2015 in South Carolina. She was one of the eight people that died on June 17. She died during a Bible study at the Emanuel African Methodist Episcopal Church. She has a 20-year-old son who is a junior at Charleston Southern University and an outfielder on the school's baseball team. "It's a tremendous honor for her," added Singleton, who plans to attend the street-naming ceremony. "I'm going to be overwhelmed with a lot of emotion."

## AMENDMENT

The Second Amendment of the United States Constitution reads: "A well-regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed." Such language has created considerable debate regarding the Amendment's intended scope. What I think about the second amendment is that people should be surer with who they give guns to check if they don't have any mental health problems and to check for any criminal records. They shouldn't let everyone get a gun mostly if the people are underage. I think the age should be carefully checked and you should know how they would protect that gun from getting to the wrong hands.
