Hey Kyle, your mom and dad really miss you. Your dad misses hanging out with you. Your mom misses your kisses every single day. They miss your warm hugs, and your broad smile. I'm sorry you had to go so early. I'm sorry your life was taken away from you. Mass shootings must stop.

5:43 PM - 20 Apr 1999

## LIFE

Kyle Velasquez was a kind and gentle guy. He loved helping his dad in the house and giving his mom kisses on her cheek. Kyle dreamed of joining the Navy like his dad. Unfortunately, he suffered a stroke at a young age and was left with a mental disability and severe asthma. As a kid he was shy and struggled making friends. He had been attending Columbine for three months and was finally beginning to open when he was killed in the library. Kyle was the first person to die in the library. He was buried "with military honors" in Fort Logan Cemetery in Denver, Colorado.

## AMENDMENT

The second amendment is a protection for American citizens to be able to own guns. It allows citizens to be able to protect themselves, but it also makes it easy for people like Dylan Klebold to commit mass murder. The second amendment should be amended in a way that it allows mentally stable citizens to obtain basic guns and forbids the mentally unstable from obtaining any type of gun.

## STATISTIC

Another senseless death.
