Hi Crystal! The loss of your remarkably kind and loving nature will forever shatter your loved ones. Your family is longing for you and your three innocent children. Death is irreversible but amendments aren't.

## LIFE

Crystal Marie Holcomb was born February 9th 1981. She was a widow who lost her previous husband to cancer. Later, she remarried with John Porter Holcombe in 2012. Krystal had five children and homeschooled all of them. She was a very involved parent that played a big role in her children's extra curricular activities such as a bake sale and the helping of Hurricane Harvey victims. On November 5, 2017 in Sutherland Springs, Texas, David Patrick Kelley shot 26 people at a First Baptist Church. Those 26 victims include Krystal Marie Holcomb. She and her three of five kids lost their lives.

## AMENDMENT

Though it's important for the citizens of the United States to be able to arm themselves against threatening individuals and an abusive government, we need to be heavily cautious of who will be in possession of these weapons. Red flag laws will prevent and take away firearms from unequipped citizens such as those with mental illnesses.

## STATISTIC

Another senseless death.
