Annabelle Pomeroy, I hope that you are peacefully resting amongst your church family, the people that died with you in the horrific shooting. I want you to know that your family misses you very much. We are working hard to make sure this never happens again.

## STATISTIC

Another senseless death.

## LIFE

Annabelle Pomeroy was adopted as a young child and raised by Frank and Sherri Pomeroy. She had high hopes of becoming a sign language interpreter and a service dog trainer. She was a wonderful girl, respectful and loving. She always wanted to sit up front to hear her father's sermons and was very close to everyone in the church. Many people came to mourn her death, along with twenty-five others that died that day, in Sutherland Springs, Texas.

## AMENDMENT

The second amendment was originally established by our founding fathers, the authors of the Constitution, to make sure that all citizens had the right to protect themselves. "A well-regulated militia being necessary to the security of a free state, the right of the people to bear arms, shall not be infringed." These are the words of our Constitution, established to protect us and our rights. Our founding fathers did not mean us harm, but the horrific intentions of these mass shooters do. As a participant of my community, my state, and my nation, I believe that the problem is not our guns, but our people. The very people that we live amongst, can have harmful, toxic intentions and we will never know this until a gun is sold and lives are lost. We should be focused on fixing the problem that is the mentally ill people out there.
