

Helena Ramsay

LIFE

Helena and her family moved to the United States in 2003 from England when she was 2 years old. Helena was also a music lover and had a sense of humor that really made her stand out. In her final moments, Helena Ramsay tried to save her friend from the school shooter. As the shooter made his way into the class, Helena told her friend that was with her, Samantha, to shield herself with books. Though injured, this saved Samantha's life. Helena was among the 17 victims of the Marjory Stoneman Douglas shooting.

AMENDMENT

The Second amendment gives the people the right to bear arms, but gun violence is out of control. There has been an increase of mass murders happening everywhere due to guns. People say guns are used for protection but really murder always seems to be a part of it. This controversy can be reduced if we allow background checks for everyone who purchases a gun. If we allow red flags laws to be passed, we can petition the permanent removal of firearms from a person who may have a serious mental illness or who represent danger to others and themselves.

STATISTIC

Another senseless death.
